2. The Monthly Fee Applications covered by this Interim Fee Application contain detailed daily time logs describing the actual and necessary services provided by Geosyntec during the Application Period as well as other detailed information required to be included in fee applications.

3. In accordance with the Interim Compensation Procedures Order, Geosyntec seeks interim approval and payment in an amount equal to the difference between the full amount of the fees and expenses requested in the above-referenced Monthly Fee Applications and the actual payments received by Geosyntec on account of the Monthly Fee Applications.

¹ Capitalized terms not defined herein are defined in the Interim Compensation Procedures Order.

SUMMARY OF SERVICES RENDERED

4. A general description and summary of the services performed by Geosyntec during the Application Period is set forth below. The summary is intended only to highlight the primary categories of services performed by Geosyntec on behalf of the Committee, and is not meant to be a detailed description of all of the work performed. The principal services performed by Geosyntec during the Application Period related to (i) monitoring and reviewing numerous environmental issues that are associated with the Debtor's business operations; (ii) review of documents, evaluation and comment on documents provided by the Debtor pertaining to environmental matters; (iii) analysis of sites where the Debtor potentially has environmental liabilities; and (iv) communications with Committee counsel.

RELIEF REQUESTED

5. Geosyntec submits this Interim Fee Application for interim allowance and payment in the aggregate of \$65,701.80 for actual, reasonable and necessary professional services rendered to the Committee during the Application Period and interim allowance and payment in the aggregate amount of \$1,613.18 for actual, reasonable and necessary expenses incurred in rendering such services.

6. Geosyntec submits that the amount of compensation requested by this Interim Fee Application is reasonable considering the nature and extent of the services rendered during the Application Period, taking into account the time spent, the rates charged, the necessity and benefit of the services performed, the size and complexity of the Chapter 11 case, the labor and special expertise required, and other related factors. *See* 11 U.S.C. § 330(a)(3). The compensation requested is also reasonable based on the customary compensation charged by comparably skilled practitioners by this and other firms in non-bankruptcy cases. As such, Geosyntec submits that the compensation requested is reasonable within the meaning of § 330 of the Bankruptcy Code.

7. Similarly, Geosyntec has endeavored to represent the Committee in the most expeditious and economical manner possible. Tasks have been assigned to professionals, paraprofessionals, and other support staff at Geosyntec so that work has been performed by those most familiar with the particular matter or task. Tasks have also been assigned based on the experience level necessary to properly handle the task. Geosyntec believes that it has been successful in this regard.

8. In addition, Geosyntec endeavored to coordinate its efforts with the Committee's other professionals to avoid unnecessary duplication of efforts.

9. Except to the extent permitted by § 504(b) of the Bankruptcy Code, no agreement or understanding exists between Geosyntec and any other person for the sharing of compensation received or to be received for services rendered or expenses incurred in or in connection with this case.¹

10. As set forth earlier, charts summarizing the total time expended by each professional and paraprofessional, and an expense summary, are attached to this Interim Fee Application.

11. Geosyntec holds no retainer or other security for fees and disbursements incurred in this case.

12. In accordance with Local Rule 2016-2(d)(viii), Geosyntec has reduced its request for compensation for non-working travel to 50% of its normal hourly rate.

¹ As set forth in the *Declaration of Michael Berman in Support of the Application of the Official Committee of Unsecured Creditors of Exide Technologies for Entry of an Order Authorizing the Employment and Retention of Geosyntec Consultants as Environmental Consultants to the Official Committee of Unsecured Creditors* [D.I. 1205, exhibit A], in the ordinary course of its business, Geosyntec occasionally employs independent contractors to work on its projects. In this case, Jeffrey Leed serves as an independent contractor to Geosyntec.

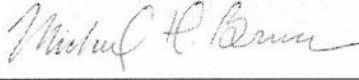

13. The undersigned has reviewed the requirements of Local Rule 2016-2 and certifies to the best of his information, knowledge and belief that this Application substantially complies with that Rule.

[Remainder of page intentionally left blank]

WHEREFORE, Geosyntec respectfully requests that this Court enter an order, substantially in the form of **Exhibit A** attached hereto, (a) approving and allowing (i) interim compensation to Geosyntec in the amount of \$65,701.80 for actual, reasonable and necessary professional services rendered on behalf of the Committee during the Application Period, and (ii) interim reimbursement of \$1,613.18 for actual, reasonable and necessary expenses incurred during the Application Period.; (b) authorizing and directing the Debtor to pay such amounts, and (c) granting such other and further relief as this Court deems just and proper.
